ABOUT CONFERENCE

The vision of complete vehicle electrification requires several ecosystems to develop and work collaboratively to leverage one another's capabilities to ensure a seamless experience. The technology platform orchestrates the broader ecosystem, and some participants remain common across several ecosystems.

EV Charging Equipment Manufacturers and Charging Infrastructure Developers to explore and establish electrical infrastructure and charge points to meet the needs of a new generation of electric vehicles. This is a platform to discuss about the development Challenges and opportunities in the industry with a high-level networking for the people of Electric Vehicle, Battery Technology & Infrastructure sector.

It is also an open platform to exchange the views, share the knowledge to promote the EV Charging infrastructure in India. The main aim of the conference is to make India a significant player in Electric Vehicle manufacturing, Battery Technology and charging Infrastructure.

The main objective of the EV DYNAMICS 2023 is to create a single platform where the Government, Non-Government, Industry Associations, State Government, Autonomous bodies, EV Manufacturers, Charging Infrastructure Provider , Research and Development organizations ,Battery Management Systems ,Central and State Renewable energy Departments and concern government institutions ,Buyers, Sellers, Training Centers, Investors, corporate and others of various industry professionals get together in one venue, thereby enabling the growth of EV Industry in India.

EV DYNAMICS 2023 CONFERENCE is also bringing to the table a unique partnership platform, the best minds of the world from the Electric Vehicle Charging Technology & Infrastructure fraternity, regulators, investors, government agencies, grid and charging station operators, and OEMs together under a roof during the EV DYNAMICS 2022 meet to provide an opportunity to understand the role of different stakeholders in building a nationwide charging network. This event will provide a platform for all stakeholders across the automotive and electrical vehicle industry to network and build business relationships and explore new technologies and innovations in the industry.

BENEFITS OF ATTENDING

"EV DYNAMICS 2024"

- ⚡ Latest market intelligence addressing the electrical infrastructure and EV charging points for the eMobility market.
